## UNIBALL UPPER CONTROL ARMS

Fabtech's Uniball Upper Control Arms are designed for severe duty use with stock and most aftermarket suspension systems. These Arms replace the thin stock upper control arms that are prone to flex and ball joint failure with heavy duty construction that is designed for aggressive offroad driving.

Fabtech Uniball Upper Control Arms directly replace the factory upper control arms for use on stock, aftermarket or Fabtech suspensions providing additional strength and reliability to the vehicle.

Enthusiasts that desire a mild lift height suspension with increased damping and wheel travel Fabtech offers the Uniball Upper Control Arms with Dirt Logic 2.5 Coilover front shocks and Dirt Logic 2.25 rear shocks as a complete system. These matched systems allow for up to 10" of wheel travel for high speed offroad use.

Super high quality take apart shocks built specifically for Fabtech suspensions. Provides the best ride money can buy.

- Vehicle specific tuning
- Designed for outstanding performance and longevity.
- 2.0", 2.25", 2.5" and 4.0" available.
- Available with or without reservoirs.

## FIVE SIXTY WARRANTY PROGRAM

Fabtech reputation for building the finest suspension systems is now backed by an unprecedented 5 year 60,000 mile FIVE SIXTY Powertrain Warranty. You get this warranty for FREE when you purchase and have installed one of Fabtech's qualifying suspensions. This special FIVE SIXTY Warranty Program covers all major powertrain parts so that you have the peace of mind that your vehicle is covered in the event of a failure.

### How it works

After purchasing your qualifying Fabtech suspension and having it installed, go on line and fill out the warranty program entry form. It's FREE.

Once received by Fabtech your information will be reviewed and entered into the nationwide warranty database.

A FIVE SIXTY Warranty acknowledgement will be sent to you outlining the details of coverage and acceptance of your vehicle.

That's it! Your vehicle is covered.

- 5 Year, 60,000 Mile Warranty
- Free, no cost warranty for Fabtech customers
- Could save thousands on possible repairs
- Easy online registration process
- Available for most late model vehicles

## SST LIFT KITS

SST® LIFT KITS THAT MAINTAIN YOUR FACTORY RIDE

69-3412 Shown

69-8020 Shown

69-1092 Shown

69-2538 Shown

ReadyLIFT® Suspension Inc offers one of the best and most exciting lines of SST® Lift Kits. The 69 Series Lift Kits are called Smart Suspension Technology (SST®) Lift Kits and are designed to provide a lifted stance with a slight OEM rake along with clearance for maximum wheel/tire sizes, all while maintaining your factory ride. ReadyLIFT® SST® Lift Kits are the perfect combination of front and rear lift components blended together in one unique lift system. We have taken our popular leveling kit lifts to new heights but developing Lift-specific products that are used in conjunction with a rear lift block or rear coil spring spacer to provide an overall lifting situation that is greater than leveling, but without the huge expense and headaches to install of giant lift kits. In addition, SST® Lift Kits install in one-third the time of a more expensive conventional lift kit and none of our SST® Lift Kits require any permanent modification to your Truck or SUV, making it easy and cost effective to return the vehicle to stock. Each ReadyLIFT® SST® Lift Kit comes complete with all necessary hardware and instructions and a limited lifetime warranty. ReadyLIFT® SST® Lift Kits are available for GM, Ford, Dodge, Toyota, Jeep, Nissan and Honda vehicles. Lifting heights vary between models. Lift height range from 2.0" to 4.0" and are ideal for the truck owner who wants added ground clearance and the ability to install a larger off road-style wheel and tire combination.

**SST Lift Kits Available For:**  
**Ford - Chevy - GMC - Dodge - Toyota**  
**Cadillac - Jeep - Honda - Hummer**

**Don't Just Lift It...READYLIFT IT®**

Designed For Use On Lifted and Levelled Trucks & SUVs

## SST<sup>®</sup> SHOCKS

### SST 9000 PERFORMANCE

ReadyLIFT SST9000 Extended Length Shocks are a CNC Machined Billet Aluminum twin tube damper design featuring a steel internal reservoir sleeve and aluminum dividing piston. The dividing piston separates the oil from the nitrogen, therefore preventing emulsification. The positive reservoir pressure helps to prevent cavitations and increase oil flow efficiency through the piston. ReadyLIFT<sup>®</sup> SST<sup>®</sup> Shocks are available for most popular makes and models of trucks and SUVs. Each vehicle application has been rigorously tested to develop a unique valving system specific to that vehicle, particularly those vehicles which have a ReadyLIFT<sup>®</sup> leveling or SST<sup>®</sup> Lift Kit installed. ReadyLIFT<sup>®</sup> offers a Limited Lifetime Warranty on all of its products. From light-duty to heavy-duty Trucks ReadyLIFT<sup>®</sup> is the SMART way to lift your truck. All ReadyLIFT SST9000 Shocks are **Made in The USA!**

Premium Lift Systems deliver the most lift for the money of any lift solution available today! Premium quality and appearance, without the premium price tag!

**CHECK OUT OUR NEW WEBSITE!!**

## WORLD'S LEADING MANUFACTURER OF BODY LIFT KITS

No one does body lift kits better than Performance Accessories. We are proud to offer the most complete line of body lift kits in the world. When you purchase a lift kit for your vehicle, you want to go home and install it, with no problems. We work hard to make that reality. Not only do we design every body lift right here in Chino Valley, AZ, USA, but we manufacture all the parts (spacers, steering extentions, bumper brackets etc.) and assemble all of the kits right here as well. Put that together with our easy-to-follow instructions and you have a winning combination! When installing your body lift, remember to order your set of custom fit urethane Gap Guards to hide the gap between frame and body, and keep the engine compartment clean.

## LEVELING KITS

GUARANTEED TO MAINTAIN YOUR FACTORY RIDE

ReadyLIFT® Suspension Inc has the most complete line of industry leading Leveling Kits. Most major suspension retailers carry the ReadyLIFT® Leveling Product line because their customers demand the Best. ReadyLIFT® has a full line of leveling components ranging from the industry leading *Forged Leveling Torsion Key* complete with shock extension brackets, to strong *Steel Strut Spacers* and machined *Billet Aluminum Strut Spacers*, including adjustable versions for late model GM and Jeep vehicles. Included in the ReadyLIFT® Leveling line up are popular *Coil Spacers* for applications such as the Ford Super Duty and Dodge Ram trucks. Toyota application leveling kits also includes differential drop spacers as well as skid plate spacers. Every ReadyLIFT® Leveling Kit system is specifically engineered to each vehicle platform. Our engineers take great pride in developing Leveling Kit products that meet OEM suspension geometry retention standards. That means that your customer will be satisfied! ReadyLIFT® GUARANTEES that our products will maintain your OEM ride! All products include a Limited Lifetime Warranty and are manufactured from the strongest materials available for that application.

**Leveling Kits Available For:**  
**Ford - Chevy - GMC - Dodge - Toyota**  
**Nissan - Hummer - Cadillac - Jeep**  
**Honda - Infiniti**

**Level Your Truck The Right Way!**

# LEVELING & BLOCK KITS

## Leveling Kits

TRUXSTUFF leveling kits have been rigorously tested in the field to insure both quality and durability. They are available in both aerospace-quality CNC machined 6061-T6 billet aluminum or hardened steel to ensure this kit doesn't fail. When it comes to both quality and value, these kits are hard to beat.

## Block Kits

TRUXSTUFF Block Kits allow you to lift the rear of your Truck or SUV! Every block kit has been rigorously tested to insure maximum quality and durability.

## BLOCK KITS

OEM-Style Rear Block Kits

ReadyLIFT<sup>®</sup> OEM style rear block kits are available for model specific applications. These Rear Block Kits include (2) Rear Blocks, (4) E-Coated U-Bolts, (8) Nuts and Washers and will safely lift the rear of your truck an additional 1" to 3" depending on application. Based on OEM designs and never made out of light weight extrusions, our Block Kits are manufactured from the strongest materials to insure your ReadyLIFT Block Kits will never fail when you need them the most! Our OEM Style cast iron block construction includes important application specific features including Anti-Rotation ears on some GM blocks, model-specific tapering to account for pinion angle correction and even OEM style bump stop landings for blocks made to fit Ford trucks! ReadyLIFT<sup>®</sup> Block Kits will put a slight rake back into your truck for hauling or towing and are designed to work with your ReadyLIFT<sup>®</sup> Suspension Leveling Kit. Like all ReadyLIFT<sup>®</sup> products, these block kits come with our Lifetime Warranty.

**Rear Block Kits Available For:**  
**Ford - Chevy - GMC - Dodge - Toyota**  
**Cadillac - Nissan - Hummer**

**Put A Rake Back in Your Truck For Towing or Hauling!**

## T6 BILLET

STYLISH LEVELING KITS THAT MAINTAIN YOUR FACTORY RIDE

### Level your truck with Style and Function for larger tires & wheels.

ReadyLIFT® T6 Billet Suspension leveling kits are built in the USA using only premium 6061 T6 aircraft billet aluminum and 10.9 rated mounting hardware. ReadyLIFT® leveling kits are all bolt-on applications maintaining factory ride and factory alignment specifications. No cutting or drilling is required when installing our kits. The ReadyLIFT® line of stylish leveling kits are now available in anodized Black, Silver, Blue and Red and are laser etched with our ReadyLIFT® Suspension logo. The T6 Billet line is the Ultimate in looks and leveling functionality! Our development team precisely engineers proprietary features into all ReadyLIFT® leveling kits to insure the right leveling kit for each application. READYLIFT® offers a Limited Lifetime Warranty on all of its products. From light-duty to heavy-duty Trucks or SUV's, READYLIFT® is the SMART way to lift your truck.

### Available in **Red, Silver, Blue or Black**

100% Premium Billet Aluminum  
CNC Precision Machined  
Gain tire and ground clearance  
Made in the USA

Anodized Finish for maximum protection  
Each Leveling kit is Laser Etched with the ReadyLIFT® Logo

**MAINTAIN YOUR FACTORY RIDE**

# SUSPENSION PRODUCTS

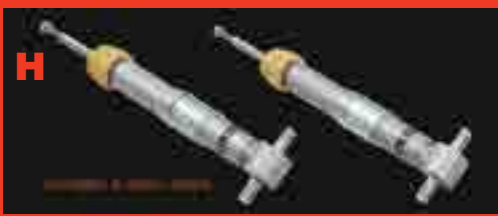

# LOWERING KITS

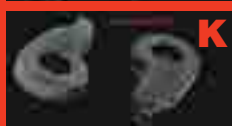

### Anti-Swaybars **A**

One of the most notable improvements you can make to your Sport Truck or SUV is the addition of Belltech Anti-Swaybars. The reduction of the boat-like body roll not only creates a more confident driving feel, but by keeping the body flat in turns and during emergency maneuvers increases the safety factor as well.

### Coil Springs **B**

Belltech Lowering Coil Springs have been engineered to provide the visual lowering you are looking for with the OEM quality that you have come to expect from Belltech. Unlike many other offerings on the market, Belltech specializes in not only ride comfort & quality, but increasing the handling performance of your Sport Truck or SUV as well.

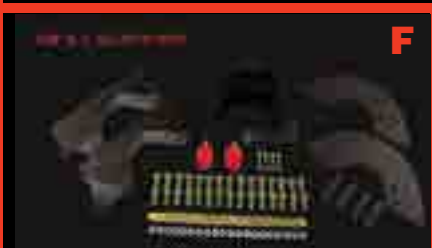

### Coilover kits **C**

Need the ultimate in handling and ride height tuning? Belltech Coilover systems by KW are the answer, providing complete height adjustable replacement shocks and springs in an application specific complete coilover unit.

### Complete Kits **D**

Do you want your Sport Truck or SUV lowered right the first time? With all the parts and pieces you need to achieve not only the look you WANT, but the alignment, and performance & safety you NEED?

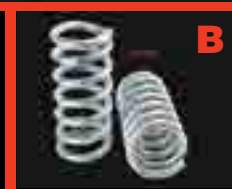

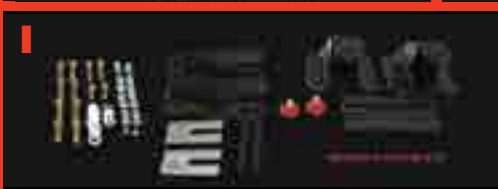

### Drop Spindles **E**

Belltech Drop Spindles offer a 2 or 3 inch drop depending on the application, while improving handling and retaining factory ride quality.

### Flip Kits **F**

When a mild drop is just not enough, Belltech can bring the heat. Belltech Flip Kits provide dramatic lowering on the rear of your Sport Truck or SUV by relocating the rear axle of your truck from under to on top of the leaf spring.

### Leaf Springs **G**

Belltech's leaf springs are designed to easily lower the rear of your leaf spring equipped Sport Truck or SUV by up to 4 inches depending on application.

### Lowering & Lifting Struts **H**

Belltech's lowering and lifting Struts - LIFT, LEVEL, LOWER & OEM REPLACEMENT

### Shackles & Hangers **I**

At Belltech, we offer both Belltech Shackles and Hangers as individual components as well as complete kits depending on your lowering requirements.

### Shocks **J**

When lowering your Sport Truck or SUV, historically the most overlooked component is the shock absorbers. Not changing them may result in poor ride quality & reduced driving enjoyment.

### Torsion Bar Keys **K**

By re-indexing the center section of the Torsion bar key, your ride height is changed simply and effectively with Belltech Torsion Bar Keys.

# LOWERING KITS

Lowering Kits description: Belltech makes it easy to lower your vehicle with a “Belltech Complete Lowering Kit,” including all of the components required to lower your truck or SUV in a one-kit purchase. Available “WITH” or “WITHOUT” shock absorbers.
